

**Tentative Schedule of the The International Algebraic Conference
dedicated to the 100th anniversary of L.A.Kaluzhnin
(July 7-12, 2014, Kyiv, Ukraine)**

Monday, July 7

9:00 – 18:00	Registration	Room 227, Building of the Faculty of Mechanics and Mathematics, Kyiv, Glushkov prospekt., 4E
--------------	--------------	--

Tuesday, July 8

Plenary Talks (room 45)

9.15 – 9.30	Opening Ceremony
9:30 – 10:15	Vitaliy Sushchansky Життя і творчість Л.А.Калужніна (Life and work of L.A.Kaluzhnin) <i>Institute of Mathematics of Silesian University of Technology, Gliwice, Poland</i>
10.25 – 11.10	Vasyl Ustimenko On Extremal Graph Theory for directed graphs and its applications in Coding Theory and Cryptography <i>Maria Curie-Skłodowska University, Lublin, Poland</i>
11:10 – 11:30	Coffee break
11.30 – 12.15	Alex Martsinkovsky The stable category of a left hereditary ring <i>Northeastern University, Boston, USA</i>
12.25 – 13.10	Ievgen Bondarenko Automata, expanding graphs, and finitely presented groups, <i>Taras Shevchenko National University of Kyiv, Ukraine</i>
13:10 – 14:30	Lunch break
14:30 – 18:00	Section talks

Wednesday, July 9
Plenary Talks (room 45)

9:30 – 10:15	Alexander Olshanskii Subgroups in free groups and their relative growth <i>Vanderbilt University, Nashville, USA</i>
10.25 – 11.10	Volodymyr Bavula Left denominator sets in left Artinian rings <i>University of Sheffield, UK</i>
11:10 – 11:30	Coffee break
11.30 – 12.00	Alexandr Letichevsky Symbolic modelling of distributed systems <i>Institute of cybernetics of NAS of Ukraine, Kyiv, Ukraine</i>
12.05 – 12.35	Mykola Nikitchenko Quasiary program algebras and logics, <i>Taras Shevchenko National University of Kyiv, Ukraine</i>
12.40 – 13.10	Alexander Lomadze Computing Euler characterizer of K theory for P groups, <i>Tbilisi University, Georgia</i>
13:00 – 14:30	Lunch break
14:30 – 18:00	Section talks

Thursday, July 10
Plenary Talks (room 45)

9:30 – 10:15	Yuriy Drozd Non-commutative nodal curves and quasi-canonical algebras <i>Institute of Mathematics, Kyiv, Ukraine</i>
10.25 – 11.10	Anatoliy Vershik Metric on the space of representations and its applications, <i>Steklov Institute, St.Petersburg, Russia</i>
11:10 – 11:30	Coffee break
11.30 – 12.15	Rostislav Grigorchuk Characteristic random subgroups <i>Texas A&M University, USA</i>
12.25 – 13.10	Bogdan Feshchenko Deformations of smooth functions on 2-torus and wreath products <i>Institute of Mathematics, Kyiv, Ukraine</i>
13:10 – 14:30	Lunch break
14:30 – 17:30	Section talks
18.00--	Conference Party

Friday, July 11
Plenary Talks (room 45)

9:30 – 10:15	Volodymyr Nekrashevych A Cantor set of groups <i>Texas A&M University, USA</i>
10.25 – 11.10	Nikolay Chernikov Artinian groups and groups with minimal conditions for non-abelian and non-normal subgroups, <i>Institute of Mathematics, Kyiv, Ukraine</i>
11:10 – 11:30	Coffee break
11.30 – 12.15	Alexei Kashu On hereditary and cohereditary closure operators in modules, <i>Institute of Mathematics and Computer Science, Chişinău, Moldova</i>
12.20 – 12.50	Volodymyr Prokip Solvability of linear matrix equations over commutative rings, <i>Pidstryhach Institute for Applied Problems of Mechanics and Mathematics, Lviv, Ukraine</i>
12:55 – 13:40	Kate Juschenko Amenability via actions of groups <i>Northwestern University, USA</i>
13.40 – 15.00	Lunch break
15:00 – 16:30	Colloquium of the Kyiv Mathematical Society Anatoliy Vershik Theory of metric triples, classification of functions and scaling entropy of dynamical systems <i>Steklov Institute, St.Petersburg, Russia</i> (Room 44)
16.30 – 16.50	Closing Ceremony
